TELLING YOU ABOUT THEM?***

***** *How To Know When Your Headache Is Coming And What To
Immediately Do About It...It's Easier Than You Think!***

***** *The “CERVICO-GENIC HEADACHE”...This Maybe Is The
Headache You Suffer From!***

***** *Why Most Doctors Just Prescribe Drugs...It's Time For You To Take
Control...This FREE REPORT Will Help You Do Just That!!!***

Listen To What Other's Have Said After Reading This Revealing Report...

**“I have less pain and more energy. I never realized it worked as well as it does, I
just feel better, IT'S GREAT!!!”**

- Paula M.

“My neck has a lot less tension and I don't have the daily headaches anymore!!!”

- Tina C.

JUST IMAGINE HOW GOOD LIFE COULD BE WITHOUT

YOUR HEADACHE, IT CAN BECOME A REALITY, IF YOU WANT!!!

Dear Headache Sufferer,

I know that this is probably the first time you've taken action to actually learn about headaches.

Let's face it, we are all influenced by those slick headache commercials selling headache medications.

That's why we keep our medicine cabinets, purses, and glove compartments fully stocked with the stuff.

As a matter of fact, they now sell headache medication at Sam's Club, in huge quantities. People go down the aisles and toss a case in their shopping carts like it's potato chips or a 12 pack of beer.

This has been ingrained in us for generations and generations. For many of us, it's the normal to take medication when we have such a problem. It's what we're used to and frankly, may not know of any better way to resolve the problem.

Does headache medicine really work? OF COURSE NOT!!! If it did, this simple report wouldn't be one of the most widely read headache reports in the country.

Yes, this ugly colored document is being read today by thousands of headache sufferers like yourself.

But hopefully by now, you're starting to figure out that popping pills everyday just doesn't make sense and may be making you feel worse!

**HEADACHES AFFECT OVER 45 MILLION AMERICANS,
but thanks to this report, the numbers are going to come down!**

If you truly are tired of your headaches and want to do something about them, then keep reading this report; it has changed the lives of thousands of headache sufferers...

Why are we putting announcements in papers across the country and sending out FREE REPORTS?

GOOD QUESTION!!! HERE'S THE ANSWER...

Because this is how we get the message to the right people who are ready for a **CHANGE**. Those of you who are **SICK AND TIRED OF BEING SICK AND TIRED**. Those of you who want **RESULTS NOW**, Those of you who want to **FIND A MEANS TO END YOUR MISERY OF HEADACHES, ONCE AND FOR ALL!!!** If you weren't ready for this change, you wouldn't have requested this report.

Drug companies don't discuss the causes of headaches because they know that they sell drugs to **COVER UP THE CAUSES**, Not to **TREAT THE CAUSES OF YOUR HEADACHE**. It's a whole different industry. Why would they tell you the reason you are having headaches, when they can make \$\$\$\$ giving you something that **WILL NOT FIX YOUR PROBLEM!**

That's why we have to tell you something, because you **WILL NOT** hear this watching *ADVIL*, *TYLENOL*, or *EXCEDRIN* commercials.

There's a saying, and it goes something like this...

“ IF YOU ARE A HAMMER...ALL YOU SEE IS NAILS.”

This means that if you would like to get rid of your headache and live a normal life, then you should find a way of getting rid of your headaches **ONCE AND FOR ALL! WITHOUT HAVING TO TAKE MEDICATION**. But don't go to a medical doctor and not expect to be give a prescription for medication. Simply because that's what they do; hammers hit nails, M.D.'s prescribe drugs. Don't expect a different approach from your medical doctor; as caring and concerned as he or she may be, to them, drugs are the solution to most health problems.

Now you don't want to hear a bunch of garble about bashing other professions , that's not why you called to receive this free report, you have one ting on your mind, which is understandable....**YOUR HEADACHE!!!**

BUT HERE'S THE GOOD NEWS...

You may be suffering not only from HEADACHES, but lack of information about a little known, but COMMON CAUSE of many headaches....the “CERVICO-GENIC HEADACHE!”

Peter Rothbart, M.D., President of the World Cervico-genic Headache Society, explains the cervico-genic headache..

“The Cervico-genic headache is a headache which has its origin in the area of the neck. The source of pain is found in structures around the neck which have been damaged. These structures can include joints, ligaments, muscles, and cervical discs, all of which have complex nerve endings. When these structures are damaged, the nerve endings send pain signals up the pathway from the upper nerves of the neck to the brain. During this process, they intermingle with the nerve fibers of the Trigeminal Nerve. Since the Trigeminal Nerve is responsible for the perception of head pain, the patient therefore experiences the symptoms of a headache.”

**If You Answer “YES” To Even Only
1 of The Following Questions, You May Be Suffering From A
“Cervico-genic Headache”...**

- 1.) Have you ever had trauma to your neck?
- 2.) Have you ever played any “Rough” sports such as football?
- 3.) Have you ever experienced any “minor” sports injuries?
- 4.) Is your neck stiff, or at times, difficult to move?
- 5.) Can you recall, or have you been told that as a child, you experienced a fall off the swings, porch, bike, down stairs, or any other seemingly inconsequential incident?
- 6.) Have you ever been in any auto accidents (passenger or driver), regardless if it was even a 5 m.p.h. fender bender?
- 7.) Do you sleep on your stomach?
- 8.) Do you work at a desk, work on a computer, answer phones all day?

While many patients who are diagnosed with cervico-genic headaches have the traditional symptoms of tension headaches, some of the patients who have the traditional symptoms of migraine (and cluster migraine) headaches also respond to cervico-genic headache treatment methods.

EVEN BETTER NEWS REVEALED ON
THE NEXT PAGE =>**

If you have a “Cervico-genic Headache”, you may be days away from feeling like your new self again,.....PAIN FREE!!!

Now I hate to sound like a nagging parent, **BUT,**
YOU HAVE 3 CHOICES FROM THIS POINT FORWARD!...

A.) Continue self medicating and living with the terrible pain caused by most headaches, FOREVER!

B.) Admit that your headaches are RUINING YOUR LIFE and do something other than temporarily covering your headaches with drugs; which by the way, maybe damaging your kidneys and liver.

C.) Fix once and for all, the cause of your headaches. **If this doesn't sound appealing to you and you would rather live with your headaches, PLEASE STOP READING RIGHT NOW!**

Here's WHY Most Headaches Never Go Completely Away...

1.) Drugs DON'T Fix Headaches, They Only TEMPORARILY Hide 'Em!

2.) Most Headaches Are Misdiagnosed and Mistreated!

Think about it, when you went to your doctor, how thorough was your evaluation. Didn't he or she just ask you a series of questions then tell you something like, "*It sounds to me like you have a tension headache, or a migraine, or a cluster....take these pills, they should do the trick!*" Does that sound like a thorough examination, accurate diagnosis or quality care to you?

3.) Many procedures including injections in the neck, surgery where nerves are purposely "burned" to eliminate their function (which in part is to detect pain,) They fail to check obvious things such as lifestyle changes, diet changes, or a change in sleeping habits.

And as effective as many of these procedures can be, people are people, and not everyone who suffers from a headache is willing to undergo these procedures. That's why so many people still have headaches.

4.) You're overworked, stressed out, and don't see your life or your job changing soon, so you decided just to live with it.

This is why a lot of people have headaches. Quite honestly, their lifestyle sinks

and they are not taking care of themselves, especially in this rat race world where there is a big push to get ahead. Many people sit behind a computer for numerous hours a day, or do exhausting strenuous work in the manual labor field, to just make ends meet!

BUT HERE IS SOME GOOD NEWS!!!

A 5 YEAR STUDY CONCLUDED THAT CERVICO-GENIC HEADACHES SURPRISINGLY RESPOND TO.....ARE YOU READY FOR THIS?..... A CERTAIN TYPE OF CHIROPRACTIC CARE!!!

What does this mean to you and your headaches?

If your headaches, even if it's a migraine type of headache, may not be caused by problems in your head; rather, problems in your neck!

Now, not every headache will get relief after seeing a chiropractor, let's not misunderstand this. There are headaches that don't respond to specific low force chiropractic care. High blood pressure, low blood sugar, hormonal changes, hangovers, dental problems, etc. can all cause headaches. HOWEVER, these are small in number in comparison with headaches that are caused by tension of the neck and head muscles, or irritation to the spinal nerves.

This means that you must make sure that the joints in your neck move properly if you want to be *FREE OF HEADACHES!!!*****

How do I choose a good, quality Doctor of Chiropractic?

Most headache sufferers, after learning this relatively new information regarding the benefit of proper Chiropractic Care for Cervico-genic causes of Headaches, wonder how to find a doctor trained in providing this care.

Oddly enough, studies show that the care is very safe, and is as one chiropractor quoted, *"like shooting fish in a barrel...it may only take 1 visit to find the problem, and can be one of the most incredibly easy conditions to fix!"*

So Our Best Advice Is To Ask The Doctor The Following Questions...

1.) Do You Treat "Musculo-Skeletal" Problems?

Some chiropractors do not focus on specific conditions. So ask the Chiropractor if he or she treats headaches that may originate from the neck; Some do not.

2.) Do You Use X-Rays and Diagnose Before Treatment?

Before going to any chiropractor, call their office and check to see if they either have the facilities in their office to take films; or if they refer them out. Either answer is acceptable. X-rays will rule out any types of life threatening injuries, that would cause the chiropractor to refer you out to a specialist.

3.) Would You Periodically Check My Neck Even After My Headaches Go Away?

There's a saying, the best doctors are those who not only get you relief, but who prevent what they are treating and make sure that it doesn't come back! So if the doctor only treats the pain, do not choose him or her. These doctors may be more motivated on money than focusing on getting results with you. Since some headaches come and go, the patients who regularly maintain a healthy and freely moveable neck do a lot better and their headaches usually stay away! So although the occasional visits won't make your chiropractor rich, it will make you feel a whole lot better. So only choose a chiropractor who will accept you as a "maintenance patient" as well.

4.) Do You Accept Payment Plans?

Now a days, many doctors are getting out of managed care because they are forced by managed care to cut the patients off from necessary care they need, even if more care, tests, or therapy is required. Patients are either going with the "managed care doctor" and hoping and praying that they'll get quality care in the limited time available and the number of visits that your managed care will pay for, regardless if you have received the results you were looking for! So in response, there are many caring dentists, medical doctors, chiropractors, podiatrists, and other health care professionals, that are giving patients comfortable payment options. Even though chiropractic care is inexpensive compared to most care, ask the office if they'd consider putting you on a payment plan.

THESE QUESTIONS & ANSWERS SHOULD PROVIDE YOU WITH ENOUGH INFORMATION TO MAKE THE RIGHT CHOICE!

HELLO!

WELCOME TO FLORIDA CHIROPRACTIC CLINICS,
FLORIDA CHIROPRACTIC CLINICS Doctors of Chiropractic have eliminated the headaches of thousands of patients here in the state of FLORIDA as well as all over the United States.

Read on to find the hidden solution you are looking for!..=>

If you live in the Tampa area and would like to have a "FREE CERVICO-GENIC EVALUATION," we offer this service as well as a FREE CONSULTATION where you will be able to sit down with one of the doctors and discuss EVERYTHING you want to tell us about your condition.

We provide a FREE MANUAL MUSCLE TEST, which will show YOU, RIGHT BEFORE YOUR EYES, exactly the severity of your problem and if you are in the right

place to get RELIEF! There will be NO mistaking TO YOU if your condition will be helped through chiropractic care and services. IT WILL BE THAT EASY!!!

If after the FREE MANUAL MUSCLE TEST AND CONSULTATION, we feel that you have neck problems contributing to your headaches, and IF AND ONLY IF you want relief that you have been longing for, we will arrange another appointment, possibly that same day, for you to receive x-rays and start the ball rolling on your way to a HEADACHE FREE LIFE!!!

If this INTERESTS YOU and YOU ARE TIRED of the same results from previous methods, simply call one of our FLORIDA CHIROPRACTIC CLINICS offices to schedule your appointment.

FLORIDA CHIROPRACTIC CLINICS

5290 Seminole Blvd. Suite A

St. Petersburg, Fl. 33708

(727) 398-2988

Your “FREE CERVICO-GENIC EVALUATION” will include...

1.) HEADACHE CONSULTATION- *We have a list of specific questions that will help discover the cause of your headache. This is also an opportunity for us to have a thorough conversation with you so we may be able to get a better understanding of your headaches and the agony of what you’ve been going through.*

2.) MANUAL MUSCLE TEST- *This SHOCKING MANUAL MUSCLE TEST will WOW the socks right off of you. Revealed RIGHT BEFORE YOUR EYES, you will see the stress your body has endured and the relief and results you can look forward to!!! There’s NO DISPROVING THIS! Once you see what this condition has done to you & the way your body has deteriorated as a result, it will leave you wondering why you have waited to take this long to pursue this avenue of relief!!!*

“I look forward to MEETING with you in person. It will be a pleasure providing you this FREE EVALUATION. Let’s keep our fingers crossed and hope there is help for you!”

-Dr. Greg Yingling

P.S. Once we evaluate you and your headache with this FREE, NO OBLIGATION EVALUATION, we will tell you if we can help or not, and if so, how long it will take and how much it will cost. You can take that information home with you to discuss this with others and call us only if you want care. NO STRINGS ATTACHED!

Call either (727) 398-2988 by _____ for your FREE EVALUATION! Due to the uniqueness of this evaluation call for the soonest possible appt. as there is a WAITING List!
